# MEDLY AGREEMENT

## What we expect from you

Take all your readings and complete the symptoms questionnaire daily, as soon as you wake up.

Follow the instructions on the screen if you triggered an alert.

Ensure there is a reliable way for the Medly Coordinator to contact you (ex. by phone, voicemail or email).

Let the Medly Coordinator know:

- ... when you have concerns about your heart health
- ... when you go travelling
- ... if you have any technical issues
- ... if there are changes to your contact information
- ... if you are no longer using the Medly system

## What you can expect from us

A member of your clinical care team will review all your alerts generated by the Medly system, every day of the week. They may call you to see how you're doing.

The Medly Coordinator will help you solve any technical problems you experience while using Medly.
